

SCROLL DOWN

17. SOLID WASTE MANAGEMENT ACTION ITEMS. List the actions to be taken to achieve the solid waste management goals and objectives. Identify the primary organization/ POC completing each task. Attach a timetable for task completion. The following are *examples* of action items:

a. (example) Address implementation of this ISWMP at EQCC meetings or other installation forums. Use these meetings as a forum to discuss concerns regarding solid waste management, recycling, or procurement issues.

b. (example) Develop procedures to educate all purchasing activities, including government credit card holders, in environmentally preferable buying practices.

- c. *(example)* Set up a waste exchange, by electronic bulletin board, newsletter, or other method. Activities generating potentially reusable items will advertise the excess materials so they may be reused by another activity.
- d. *(example)* Enhance public education on waste management and recycling issues through public meetings, community events, school programs, and use of the media.
- e. *(example)* Report solid waste management data to the MACOM annually using SWARS. Include computation of the waste diversion rate resulting from implementation of the QRP.
- f. *(example)* Include provisions for the reuse or recycle of excess or waste materials associated with construction and demolition projects.
- g. *(example)* Initiate a low-technology compost operation for the management of yard wastes. Account for all diversion of wastes due to this operation.
- h. *(example)* Periodically review this plan and the solid waste management program to evaluate their effectiveness and relevance.
